

with **CHAMBER**Art. 44065 **65lt**Art. 44091 **90lt**

**The combination oil suction/drainers** are suitable for draining the engine oil from any motor vehicle by gravity, (with vehicles placed on auto lift or pit) and with probe.

The transparent chamber allows the **quantity and quality of the sucked oil to be controlled immediately**. The oil must be hot (70/80 °C).

Art. 44065 **Combination waste oil suction/drainer with transparent chamber**  
wheel-mounted **65-litre tank** equipped with level-gauge  
supplied with series of probes (art. 45560) See page 122

N° 3 packing     $m^3$  0,330    kg 38,2

Art. 44091 **Combination waste oil suction/drainer with transparent chamber**  
wheel-mounted **90-litre tank** equipped with level-gauge  
supplied with series of probes (art. 45560) See page 122

N° 3 packing     $m^3$  0,360    kg 42,1

In addition to serving as a filter, the antisplash screen is also a useful support for draining the filters just changed.

Article	44065	44091
Tank capacity	65 lt	90 lt
Max. draining capacity	52 lt	75 lt
Chamber capacity	8 lt	8 lt
Bowl capacity	13 lt	13 lt
Depressurizing pressure	7 bar	7 bar
Depressurization time	2 min	2,5-3 min
Noise level	75 dB	75 dB
Suction speed with oil at 70-80°C, probes 6 mm.	1,5-2 lt/min	1,5-2 lt/min
Total suction capacity	43-45 lt	60-65 lt
Suction hose	2 m	2 m
Draining hose	2 m	2 m
Max. discharge pressure	0,5 bar	0,5 bar

**Important:** DO NOT drain brake fluids, fuels or flammable liquids of any kind, corrosive liquids.
