

This diagram illustrates the assembly of a manual sprayer. The main tank is a white cylindrical container with a handle (V322) and a pump mechanism (KC026) on top. A yellow spray gun (S201) is connected to the tank via a yellow hose (KR2210). A green hose (KR2205) is also shown. A red hose (KR2207) is connected to a red nozzle assembly (KG090) which includes a red trigger gun (H047) and a red nozzle (H187). A brown hose (KG079) is connected to the tank. A blue wheel (KR2202) is attached to the bottom of the tank. A white container (ART. 24891) is shown at the bottom right. Various other components are labeled with codes like H032, V082, H034, H059, S408, H047, H052, O001, O003, and I047.
